The Governor's Veto.

Walker, as a matter of course, omits no opportunity to make a point against his old enemy, the Governor. So he pitches into his vetoes of the two or three appropriations made by the Legislature for local purposes, two of which happen to concern the Third District. He remarks that the Governor having been guilty of a gross wrong to the people of that section "can't forgive them," meaning thereby, we suppose, that he naturally and maliciously desires to persecute those whom he has already injured. He also remarks that the Governor in his refusal to veto the Capitol removal bill "contented that he had no right to veto any bills but such as were unconstitutional," or in other words, "that he had no right to interpose his veto from considerations of public policy alone."

THE SUNDAY QUESTION.

Why Christians Observe Sunday Instead of Saturday.

The Sabbath question may be either very simple or very difficult of solution, depending wholly on the preconceptions, prejudices, habits of thought, and a multitude of other mental conditions of the person addressed. If he has from early youth imbibed the prevailing orthodox and popular conceptions on this subject, and they are growing with his growth and strengthened with his strength, as is usually the case, it would be a sheer waste of time and effort to seek to give him any information. The minds of most men, even men of more than average intelligence in other respects, are not so pliable as to be changed by teaching and belief in regard to the Sabbath that it is almost impossible to get them out of the fog and haze in which they have dwelt so long.

THE DEMOCRATS AND REPUBLICANS TALKING ABOUT THE NEXT NOMINATIONS.

This is the attitude of the Pennsylvania Democrats: They are for Hendricks, Fayard, Thurman, General Grant, and they will give up their prejudice rather than run a clear hazard of defeat. Satisfy them that without New York they lose the battle, and without Tilden they lose New York, and they are for Tilden. What I have said above applies to the general run of Democratic members, who have not thought seriously on the question, and have not, therefore, enlisted under the banner of any particular candidate. A definite programme has been mapped out by the leaders of the Wallace wing of the party, but it has not been communicated to the rank and file. The plan is to throw the vote of Pennsylvania in the Convention for Governor Hendricks in return for the Western vote of ex-Governor Curtin for Vice President. It is a shrewd and carefully laid scheme, and is worthy of the Pennsylvania Republicanism, but now the friends of Gov. Fildes' friends. It contemplates shifting the battle-ground from New York to Pennsylvania, carrying the latter State by the "Old War Governor's" popularity, risking the loss of the former, insuring Indiana, and making a political triumph for the Union of the South, the East, and the Pacific Coast; the Hendricks and Curtin slate arrives at the same result by adding to the vote of the South that of Pennsylvania and Indiana, and taking the chances of carrying the close Western States. There is good reason for stating that Senator Wallace is using his great talent for organizing political movements to forward this scheme, and for believing that Governor Curtin had it in view when he surprised his friends by taking the stump for Allen last October.

THE COMMISSIONER OF INDIAN AFFAIRS.

He does not apprehend any trouble at Red Cloud Agency on account of the failure of supplies. Congress will be asked for an appropriation to bridge over the winter of 1875-76, and the end of the fiscal year, but temporarily the Commissioner thinks he will be able to issue as usual.

CONGRESSMEN SERENADED.

Representatives Fort, of Illinois, and Cason, of Indiana, were serenaded to-night by their Republican friends, including Union soldiers, at Willard's Hotel, the former having offered a resolution in the Pennsylvania Republicanism, but now the Secretary of the Treasury has a vigorous following, gained solely by his vigorous warfare upon the Whisky Kings. A member from Washington county, the birth place of the ex-Speaker, tells me that three-fourths of the Republicans here are in favor of Bristow, but now the sentiment is not as decided throughout the State, and it is probable that the preference of the member leads him to exaggerate the feeling in his section. Mr. Blaine's friends upon the whole are too strong to be broken so quickly. A sudden wave of popularity may appear to raise a rival higher in public regard, but the men who control Republican politics and who will name the delegates to the National Convention continue to be staunch friends of Bristow. The vote of the Republican here is not so quick, but the men who control Republican politics and who will name the delegates to the National Convention continue to be staunch friends of Bristow. Time and Place of Holding the National Republican Convention.

WASHINGTON, January 8.—The Republican Committee which meets here next week to fix a time and place for holding the National Republican Convention will have to consider the claims of seven or eight cities desiring to be designated. The cities will, without doubt, be New York, Chicago, Cleveland, Cincinnati, Philadelphia, New York, Washington, or Saratoga Springs. There are no expressions from members of the committee which show that a majority, or perhaps any very large number, have decided preferences. Headquarters of North Atlantic Station. WASHINGTON, January 8.—The concentration of naval vessels at Port Royal is in pursuance of a general plan of the Secretary of the Navy to make that place the headquarters of the North Atlantic Station. It presents many advantages over any other port on the Atlantic coast. The climate is very healthful, and the harbor offers every facility for the exercise of naval tactics. Vessels rendezvoused there can reach Cuba waters and the Gulf, where our interests most need to be looked after, within a few hours. It is the policy of the Secretary of the Navy to have the home squadron larger than any abroad. He believes in being prepared for any emergency which may arise.
